QUOTATION REQUEST

We are planning to develop a new, modern, professional, and high-performance website for our company. Therefore, we would like to request a detailed quotation for the complete website development.

Our main requirements are as follows:

1. New Website Development

- Modern, professional, and attractive design
- User-friendly and easy navigation
- Fully responsive for mobile, tablet, and desktop
- Modern and advanced web technologies
- SEO-friendly website structure
- Secure and scalable website
- Easy-to-use admin panel for managing products and website content

2. Website Speed & Performance

- High-speed website loading
- Optimized images and website content
- Good performance on both mobile and desktop
- Fast page loading and smooth navigation
- Performance optimization according to modern website standards
- Please specify the expected website performance/speed score (such as Google PageSpeed Insights) in your quotation.

3. Online Payment Gateway

- Secure online payment gateway integration
- Ability for customers to make online payments for our products/services
- Please mention the available payment gateway options and integration charges.

4. Company & Product Information

- Company profile
- Product catalogue
- Product details and images
- Contact page
- Customer inquiry/contact form
- Social media integration
- Google Maps/location integration

5. Business Email Accounts

- Setup of 2 professional company email accounts using our company domain.
- Please mention the storage capacity and email service included.

6. Domain & Hosting

- Suitable and reliable hosting
- SSL certificate
- Please confirm whether our existing domain can be connected to the new website.
- Please provide annual hosting and renewal charges separately.

7. Security & Maintenance

- SSL/security configuration
- Regular website backup
- Basic security protection
- Maintenance and technical support options
- Software/plugin updates where applicable

8. Previous Website Samples / Portfolio

Please provide samples or links to websites that your company has previously developed, preferably websites with similar business, product catalogue, e-commerce, or online payment requirements.

We would also appreciate it if you could provide 2–3 relevant website samples so that we can evaluate the design quality, speed, responsiveness, and functionality.

9. Detailed Quotation

Please provide a detailed quotation including:

- Website development cost
- UI/UX design cost, if applicable
- Payment gateway integration cost
- Hosting cost
- Domain-related charges, if applicable
- Professional email setup cost for 2 accounts
- SSL/security charges
- Maintenance/support charges
- Any additional or recurring charges
- Estimated development time
- Payment terms
- Warranty/support period after website launch

Please also recommend any additional features or technologies that would be beneficial for our business and future online growth.

We look forward to receiving your detailed quotation along with your previous website samples/portfolio.
